Hello Lauren,

No real status change since the last update. We have recently received the draft 401 Cert from the State of Idaho on the draft general permit for Idaho hydroelectric facilities. We are working on addressing the draft cert. There are still once we complete that an a few more items, we will be ready for going out to public comment. I have you on the distribution list to receive notice for that public comment period.

Best regards,

*Dru*

Dru,

I had a note on my calendar to check-in with you on the status of NPDES applications for Corps/USBR Columbia and Snake river dams. Please let me know if you have any updates. Thanks.

Hi Lauren,

Thanks for your email. We have not planned the schedule for Corps/USBR dams located in WA as we are still working on the Idaho dam GP (which is currently at the State of Idaho for draft 401 cert). I will let you know when we schedule work on the WA Corps/USBR dams, however, please feel free to email me about the schedule or other questions anytime.

Best regards

*Dru*

Hi Dru,

Checking in to see if there's any update on when EPA plans to issue, or begin to review, the NPDES permit applications from the Army Corps and USBR for dams on the Columbia and Snake rivers. We want to engage on the public comment period and I'm doing some 2018 planning. Thanks in advance.
